APPLIANCES & LARGE ITEM DISPOSAL

When you purchase a new appliance, ask the retailer if they will pick up the old one. If the appliance is in working order, contact community service organizations to see if they will accept it – you may even receive a tax deduction for the donation. For non-working appliances, call your trash hauler to verify if they will take your large item for disposal. Non-working appliances may have monetary value as scrap metal -- see *METAL* in this guide for a listing of scrap metal yards that may take appliances. Prior to disposal, Freon must be removed from refrigerators, air conditioners and dehumidifiers. Call businesses listed for prices, hours, and services.

ASBESTOS

Asbestos is a hazardous material when the fibers are released into the air. Exposure to asbestos fibers can cause a variety of illnesses including lung cancer. You should consult with an environmental professional if you suspect that material in your home is asbestos. Asbestos from homes can legally be disposed with regular trash; however, it is very important to inform your waste hauler or label the containers to prevent exposure to the workers. OSHA and NESHAPs regulate businesses with asbestos-containing materials in their buildings. The following listings may provide assistance in sampling, testing, removal and disposal of asbestos.

See Page 8.

LIVINGSTON COUNTY SOLID WASTE PROGRAM
BATTERY COLLECTION LOCATIONS

Livingston County recognized a need to provide a convenient way to properly dispose of used household batteries and rechargeable batteries. We worked with local units of governments and other agencies to establish battery collection container drop-off locations throughout the county. Current participating locations are listed below.

Please be sure to call first, as every agency has different office hours. Also, please respect the generosity of these organizations by only recycling during office hours, and only bringing in size "D" batteries and smaller batteries. Please do not put bags, containers, debris, or items other than batteries in the collection buckets.

Absolutely no automotive or large batteries at these sites.

Please see HHW collection events for larger batteries or call Solid Waste at 517-545-9609.

HOUSEHOLD HAZARDOUS WASTE (HHW)

Some household hazardous waste items can be harmful if they are thrown in the trash, dumped down drains or spread on the ground. The best way to reduce waste is to buy only what you need and to use what you buy. The following are three options to safely discard of unwanted hazardous materials such as cleaners, oil-based paint products, mercury, lawn and garden chemicals, automotive products, and many other items.

LIVINGSTON COUNTY RESIDENTIAL HHW COLLECTION EVENTS

Currently these events are a FREE service for Livingston County residents only. An appointment is required to participate, and space is limited. Information on event dates, acceptable items, and how to schedule a required appointment is on the website at www.milivcounty.gov/dpw

Event dates are typically updated in late March. The list of accepted items available on the website includes (but is not limited to) household cleaners, mercury thermometers, automotive fluids, oil-based paints, pool chemicals, lawn and garden chemicals, and much more.

✓ *Watch our website for Solid Waste events. To receive e-mail updates about upcoming events, send an e-mail to solidwaste@livgov.com and put "E-mail" as the subject, or call 517-545-9609.*

The business listed below will accept residential and commercial customers.

Please call for prices and arrangements for drop off. Accepts household hazardous waste, oil based paint and stains, used motor oil, antifreeze, gasoline, household cleaners, etc.

EGLE HOTLINE for questions on disposal of hazardous items: 800-662-9278

LANDFILLS, DUMPS & TRANSFER STATIONS

If the item you no longer need or want cannot be reused or recycled by any of the organizations listed in this guide, you still have a few options for disposal. Contact your trash hauler to determine if they will accept the item curbside or if they provide roll-off containers for items like construction debris. Many local units of government also sponsor one-day collections, usually in the spring or fall, where residents can dispose of unwanted items – contact your respective city, village or township for details. Lastly, you can load the items up and take them to the nearest landfill, transfer station or processing facility. **Call first for hours, prices, and restrictions.**

MERCURY

Mercury is a highly toxic metal that emits a colorless and odorless gas. Polluted water and soils are what cause fish advisories in many water bodies. NEVER vacuum or sweep spilled mercury! For questions about Mercury spills, please call the Livingston County Environmental Health Department at **517-546-9858.** Mercury can be transported safely, if double bagged in sealed plastic bags.

Website for Mercury Info State of MI: http://www.michigan.gov/documents/mdch/WhenMercurySpills_214576_7.pdf

See THERMOSTATS in this guide for locations to drop off used thermostats. Double bag Mercury thermostats and thermometers before transporting to recycle. Try to leave the thermostat unit intact, double bag in sealed plastic bags.

METAL

Metals are the most commonly recycled commodities around the world. Larger items such as appliances, aluminum siding, cars, and tools contain a variety of recyclable metals. See the "scrap metal" section of the Yellow Pages or try one of the organizations listed below. Refer to **Automobiles** in this guide for organizations that take donated vehicles. PAINT – LATEX AND OIL-BASED PAINTS

Buy only as much paint as you need. You can share leftover paint with neighbors or community organizations like theatre groups. **Please call these vendors for current information and prices.**

- ✓ **Dried latex paint** is not considered hazardous to the environment. Place dried out paint cans next to your regular trash. Do not put lids back on cans. Trash haulers cannot take closed paint cans or wet latex paint.

A faster way to dry latex paint: In a well-ventilated area - Line a large cardboard box with a heavy duty plastic garbage bag. Pour the latex paint into the bag in the box. It will dry faster because you are exposing it to more air. Stir it occasionally. You can add kitty litter, shredded paper, or a drying product to accelerate the drying. Please be mindful that the paint is out of harm's way for children and pets. Tie up the bag once the paint is totally DRY and put it out next to your trash for pick up.

Recycle Livingston

PHARMACEUTICALS and over-the-counter medicines

Do not flush or pour medicines down the drain. Items that are poured down the drain end up in our watersheds and many water treatment plants are unable to filter out these chemicals.

For local disposal: a program called **"Big Red Barrel"** has many Livingston County locations where you can drop off prescriptions or over the counter medicines for disposal. NO QUESTIONS ASKED. See the **Solid Waste** website www.milivcounty.gov/dpw for up-to-date link to the flier. Go to: Big Red Barrel Program Website: http://livingstoncountycommunityalliance.org

"Big Red Barrel" Locations as of October 2026:

*Brighton City Police Dept.

*Green Oak Township Police Dept.

*Hamburg Township Police Dept.

*Howell City Police Dept.

* Livingston County Jail, Highlander Way, Howell
(Accepts liquid meds, double-bagged in plastic bags.)

*State Police Post, Brighton Post – Buno Road

or any State Police Post

*Unadilla Township Police Dept.

* Village of Fowlerville Police Department

* Village of Pinckney Police Department

BIG RED BARREL GUIDELINES

- Bring pills in their original containers and a resealable plastic baggie to any Big Red Barrel location. (By law, all prescription medication needs to be in its original packaging at all times.)
- Dump the pills into the plastic baggie. Seal the baggie. Discard the empty pill bottle. *Remember to remove your personal information before throwing the empty bottle away!*
- Place the baggie, with the medication inside of it, into the barrel.
- Congratulations! You've properly disposed of your medication!
- If you do not have a resealable plastic baggie, you may dump the medication directly into the barrel.
- Please do not discard the bottle into the barrel.

To dispose of liquid medication:

- Before you visit the Big Red Barrel, pour the liquid medication onto paper towels until all of the liquid medication is absorbed by the paper towel. We do this to avoid the potential for a bottle to break and having it spill liquid medication inside the barrel.
- Place the paper towels into a resealable plastic baggie.
- Bring the baggie, along with the empty bottle of medication, to a Big Red Barrel site. You may be asking "If, by law, all prescription medication needs to be in its original packaging at all times, why does the liquid medication get dumped into a paper towel before I reach the barrel? Wouldn't I be breaking the law?" In order to avoid a sticky mess and the likelihood that police departments will not readily have rolls of paper towel on hand, please have the empty bottle available for any inspection that law enforcement may want.
- Place the plastic baggie into the barrel. Discard the empty bottle. *Remember to remove your personal information before throwing the empty bottle away!*
- Please do not discard the empty bottle into the barrel.

As a last resort – mix drugs (do not crush) with dirt, kitty litter or unused coffee grounds, seal drugs in plastic bag, place plastic bag in trash. Take empty prescription container and black out/scratch out any personal information and recycle or throw away. For more information, call the EGLE information line at **800-662-9278.**

PLASTICS RECYCLING (INCLUDING PLASTIC SHOPPING BAGS)

Recycle Livingston

PROPANE TANKS

Any tank under pressure, such as propane, helium, or butane, can cause injury to sanitation workers and equipment if they explode. Propane tanks that are not equipped with the overfill protection device (OPD) cannot be refilled. A quick way to tell if your tank has the device is to look at the valve – if it is triangular, it is ok; if it is round, then it must be upgraded or recycled. Visit www.usemichiganpropane.com for a list of participating retailers or contact one of the organizations listed below. **Call first for possible fees and tank requirements.**

SHARPS - Needles, Injectors, and Lancets

"Sharps" is a broad term used to describe syringes with attached needles, injectable pens and lancets. When disposed with the regular trash, they can be harmful to sanitation and recycling workers. To reduce the dangers of sharps, you may choose to purchase a pre-paid mail container, sold at most pharmacies. Place used needles in the container and take the full container to one of the locations listed below or ask your pharmacy or doctor if they will accept used sharps. Livingston County will also accept sharps in a liquid laundry detergent bottle with the lid taped shut and labeled 'SHARPS'.

Chelsea Care Pharmacy (3-2020)
734-593-5900
14650 E. Old US 12, Ste. 103, Chelsea, MI

YARD WASTE

Yard waste is banned from landfills and incinerators in Michigan. Grass cycling is an easy and effective way to reduce yard waste. By leaving the grass clippings on the lawn after mowing, you eliminate the need for bagging and reduce the need for fertilizers since the grass clippings provide valuable nutrients and water. Leaves, brush, and pruning can be composted at home. Composting is a natural and simple process of recycling yard waste back into the soil. Visit the Livingston County Solid Waste Program Website for more information on backyard composting.

Some communities and trash haulers offer curbside pick-up of yard waste. Contact your local municipality or trash hauler for more information. There are also two compost farms in the County where you can drop off yard waste for a fee.
